

EDUCATION

B.Tech (AI&DS) - Sri Eshwar College of Engineering CGPA : 7.96(upto 5th sem)	2023 -2027
HSC –Government Higher Secondary School 90%	2021-2023
SSLC – Government Higher Secondary School PASS	2020-2021

INTERSHIPS

MERN Stack Intern G-Soft Tech Solution	[Jan-2025]
- Developed scalable full-stack applications using MongoDB, Express.js, React, and Node.js. - Built dynamic and responsive user interfaces to enhance user engagement. - Integrated RESTful APIs for seamless data exchange between frontend and backend. - Optimized backend performance, implemented authentication, and ensured secure database operations.	
Data Engineering & Gen AI Intern	[July-2025]
- Built ETL pipelines using Apache Spark and Airflow for large-scale data processing. - Worked with MongoDB and applied BDA techniques for data analysis and storage. - Developed Generative AI models using OpenAI API and Hugging Face. - Used VMware for cloud simulation and collaborated on Docker-based deployments	

PROJECTS

AI- Personalized Career Guidance Platform	2025
Developed an AI-powered MERN stack platform that provides personalized academic and career recommendations based on student skills, interests, and performance. Integrated Machine Learning models and interactive dashboards to improve career guidance accessibility for students.	
Machine Learning Project – Voice Activated Smart Home System	2026
A machine learning–based voice automation system that uses speech recognition and TF-IDF–based text classification to identify user intent and simulate hands-free control of home appliances.	
SmartLearn SimplifyAI – NLP & Deep Learning	2026
Built an NLP and Deep Learning based educational text simplification system that converts complex study materials into easy-to-understand content using AI-powered language processing techniques. Developed features like document upload, text summarization, and AI-based question answering to improve student learning accessibility.	

CERTIFICATIONS

Certified in C&C++	Great Learning	2023
Certified in Data Science	Great Learning	2024
Certified in Numpy and Pandas	Kaggle	2024
Certified in Java Programming	Udemy	2024
Certified in Java Programming	NPTEL	2025
Certified in Machine Learning	Coursera	2025
Certified in Python Programming	SpringBoard	2025

ACHIEVEMENTS

- Leetcode** - Solved 210+ problems
- SkillRack** – Solved 600+ problems
- Codechef** – Solved 250+problems

SKILLS

Languages	- C C++ Python Java HTML CSS
Core	- DSA DBMS OOPS MERN Stack
Tools	- VS Code Canva Github Tableau Power BI
